

EVALUATION OF SUPERINTENDENT

The Board of Education recognizes its responsibilities to evaluate the Superintendent of Schools.

During each year of the Superintendent's appointment, the Board and the Superintendent will meet to discuss a plan of performance review and accountability for that school year. The final plan adopted shall be within the sole discretion of the Board. Such evaluation will be discussed only during an executive session.

By August 31 of each year, the agreed-upon evaluation procedures must be filed in the district office and made available for review by any individual.
