

INSTRUCTIONAL GOALS

The Niskayuna Central School District subscribes to the belief that an educational institution functions best under the direction of a mission statement and a statement of educational goals. This statement forms the basis of all educational programs. The Board of Education is responsible for adopting this statement as a result of community and staff input.

The Superintendent of Schools is responsible for annually reviewing the mission and goals with the Board of Education and staff.

Adopted: February 26, 1996
